Experience onboarding at its best.

Click Boarding gives you more.

Click's mobile-first, cross-device platform is the turnkey solution you've been waiting for.

Our end-to-end employee journey platform is the intersection between engagement and compliance, at scale. Our platform integrates seamlessly with existing tech solutions, augmenting and extending their current capabilities to enable a comprehensive HR suite.

Click starts by engaging new hires with multi-media content to delight and reassure their initial "yes". From there, tasks and forms are enabled via seamless, intuitive workflows. The result? A top-down approach to onboarding that puts the employee first, with unmatched compliance and enhanced data security. Plus, it's configurable every step of the way, so you don't have to move mountains!

The Click Difference:

Alongside our industry-leading service comes the robust yet nimble functionality you can't pass up. Plus, it's developer friendly thanks to our API Developer Portal and Single Sign On.
